President Speaks

My wife and I recently went on a day hike up Darby Canyon on the west slope of the Tetons. Shortly before you reach the Wind Cave there is a monument for some Girl Scouts and their leader who were killed by a lightning strike back in the 1950's. A sobering reminder of one of the most common hazards we face during outdoor activities. Forty five people died in this country last year from lightning strikes and there have been at least sixteen so far this year. So when you're out playing in the mountains or even just out on the golf course know how to stay safe from lightning it can save your life.

August 31: Fastpack the John Muir Trail—10 days/221 miles

The John Muir Trail, always billed as one of the most spectacular in the world, runs for 211 miles in the Sierra Nevada from Yosemite NP, through the John Muir Wilderness, Ansel Adams Wilderness, Devils Postpile National Monument, Kings NP, and Sequoia NP to its' end at Mt Whitney.

Statistics: Total hike (exiting at Whitney Portal) = 221 miles

Total elevation Gain = 40,000+ feet

Most of the hike is above 8,000'

Much of the hike is above 10,000'

Highest Pass = 13,100'

Highest Point = Mt Whitney – 14,500'

Resupply points = 4

The Hike: I have obtained a hard-to-get 6-person permit (reservation confirmation) that starts from Happy Isles in Yosemite on August 31, 2008. We will fastpack the entire 221 miles in 10 days, with a 3-day grace period.

Fastpacking basically involves using ultralight packs, tarps instead of tents, no stoves (no hot food/drinks), crack starts, other minimalist/dual purpose gear, and resupply points. However, approved bear canisters are required (though they do make good seats). A little suffering should be expected, but the rewards are bountiful.

I'm looking for a few hardy souls with backpacking experience, stamina and positive attitudes. To deter bailers, I'm requiring a nonrefundable \$75 contribution for trip expenses (permits, gas, shuttle, food drops, etc) for each person accepted. For more info or to be considered, contact Mike Allen at madallen@cableone.net or 208 384-1545 (Boise). Very limited.

Climbing

For information on trips, driving instructions, or to sign up to go, contact Kevin Coble at 529-8142 or Eric Larsen at 522-9354. To find out about last minute changes to the summer climbing schedule or

about impromptu weekend trips you will need to subscribe to the IAC climbing mailing list by visiting: http://www.macrobotics.com/mailman/listinfo/iac_climbing or, via email, send a message with subject or body 'help' to:

iac_climbing-request@macrobotics.com

The great thing about the e-mail list is that anyone can plan a trip and let others know about it. So speak up if you've got a trip you want to plan.

Note: If you plan a trip far enough in advance, please send it to editor@idahoalpineclub.org to post in the monthly bulletin and let club members who haven't subscribed to the e-mail list know about it too.

Hi Everyone, Here's the schedule for the Wednesday night climbs. For the climbs south of IF (Blackfoot, Ross Park), we'll meet at the climbing gym. For climbs east of IF (Ririe, Paramount, Heise) we'll meet at the McDonald's by Fred Meyer. Meeting time is 5:45.
