President Speaks

Here it is, fall again. We've got snow, fall color, and Indian summer all wrapped up together. This is a great time to get out and play on those last warm clear days of the year. It's also a great time for a trip south. Southern Utah and Arizona are great places to hike or mountain bike before ski season gets underway. Something else that fall brings us is elections. There are national elections, state elections and elections for Idaho Alpine Club council members. Just as it is important to get out and vote for the next mayor or senator you need to come to the November meeting and vote for the new council members. Remember that the meeting will be on the first Wednesday in November (11-04-09), at St. Luke's church. So have fun, stay in shape for ski season, and come out and vote for your favorite council member. Mark Whitham

Comment on Planning for City of Rocks Future

The National Park Service (NPS) is looking for public scoping comments, to develop a new general management plan for the City of Rocks (CoR). During this initial "scoping" phase of the General Management Plan (GMP), the NPS would like to know what we want them to consider as they begin planning and setting priorities for the long-term future of City of Rocks National Reserve. A General Management Plan (GMP) is a long range plan that answers "What kind of place do we want this park to be?"

By November 15, 2009 review the public scoping newsletter and send the NPS your ideas and concerns directly online:

<http://www.parkplanning.nps.gov/ciro>

Note: this is for CoR only. Castle Rocks is an Idaho State Park.

Caribou-Targhee Maps on Line

Most of the Palisades and Teton Ranger District color topographic maps on the Caribou-Targhee National Forest web site have been revised to reflect trail number, trail route and trail use changes. Many of the Palisades district trails have been recently GPSed and so the maps are now considerably more accurate. There are 11 maps at a scale of 1:112,500 covering both ranger districts and 13 more detailed maps (hiking scale, 1:50,000) covering popular trails. All maps are Acrobat format and can be printed at home.

Hiking 101: The joys of fall hiking

Now that autumn is well in progress throughout the country, we all have several things to look forward to: family holiday gatherings and fall hiking!

When planning an autumn hike, keep these things in mind:

- ✓ Obtain schedules of local hunting seasons and always pack appropriate blaze orange garments.
- ✓ Be aware that days are getting shorter. In some areas the sun is setting close to 5 PM now, so when planning that little "shortcut," make sure the batteries in your headlamp are fresh.
- ✓ Days are also getting colder and even a little drizzle can leave you dangerously chilled. Have appropriate waterproof and insulating garments available (avoiding cotton) and try to incorporate a few more calories into your trailside snacks.
- ✓ In the colder regions, fall is a great time to see wildlife stocking up for winter hibernation. Most of these critters will be active around dawn or dusk - sitting still during these times can increase your chances of seeing some great wildlife!

Enjoy the crisp autumn air and the changing color of the leaves. Happy fall hiking from American Hiking Society!
